

RED RIVER EXHIBITION ASSOCIATION: Looking for vintage buildings

The Red River Exhibition Association is creating an authentic Heritage Park and is looking for vintage structures to feature on a year round basis. More specifically, if you or a town you know of are looking to repurpose a pioneer house, church, workshop or schoolhouse (or a structure we could turn into something like this) we would love to hear about it!

We are looking for small buildings to be donated for the future creation of our Red River Heritage Park. Our association will pay for moving the structure to our Park as well as any reconditioning and on-going maintenance of the building.

In return, we would be pleased to feature a family name or a town name on a plaque or sign located on or nearby the structure. (i.e. The Smith Family Pioneer House) It would then become one of the featured buildings in our new Red River Heritage Park.

If you are interested in donating your building, please send a photo and a brief description of it to info@redriverex.com. We would love to hear from you! If you require additional information please contact us at 204.888.6990.

Feel free to pass this information along to anyone who might be interested in repurposing any small buildings they might have.

Red River Heritage Park:

Take a step back in time and learn what life was like way back when. Wander through a collection of vintage buildings and check in on the lifestyles of early residents as they built and lived in an early farming community. The community will be comprised of a pioneer house, church, workshop, school, general store, antique tractors and sawmill. Many times a day Red River Heritage Park will come alive through a variety of demonstrations and performances.
